

An Independent Agent Representing Aflac

Lake County ESC Staff,

Please review the following summary of benefits available. Open enrollment will have a new look this year. I won't be visiting staff lounges during lunch hours, it's uncomfortable for everyone...me too! We will go high tech...emails, text, or old fashioned phone call.

Short Term Disability- income protection for unexpected time off of work due to illness, injury, recovery from surgery, and maternity. Pays in addition to sick days if you have them, more important if you don't. Maternity, expected surgical procedures (knee and hip), and staff with less than 35 sick days are the most common participants.

Accident Plan- benefits paid to you for treatment of injuries 24/7, typically used to cover deductibles and co-pays. Coverage can include spouse and dependent children to the age of 26. This plan is very useful for families with active children (sports, dancing, atv riders), and dangerous spouses!

Cancer and Critical Care Coverage- benefits paid when you need them most. Serious injuries, and medical conditions have the potential to create financial hardships for those individuals and families affected. In my 24 years with Aflac, these plans have the most impact in difficult situations.

Life Insurance- both Term and Whole Life available for individuals and families. Most people simply do not carry enough to protect loved ones and assets.

Please contact me if you would like more information, need to file claims, add or drop coverage. Email, text, or call and I will be happy to help. I can see you before, during, and after school, whatever fits best for you.

All the best!

Mark Wheeler, Aflac
